

COMBUSTION TECHNOLOGIES

Applications

Engines
Mobile & Stationary Equipment

Sump Capacity

40 to 80 Gallons

Specifications

Overall Dimensions F-1000

23.675" Height

11.250" Width

10.675" Depth

Max. Operating Pressure 125 PSI

Flow Rate* 1.0 GPM

Housing Capacity 5 gallons

1/2" NPT inlet and out ports Element

Removal Clearance 21.00"

Housing Part Numbers

HP1012 Powder Baked Black

Element Part Numbers

DE-4110 - Diesel Fuel

HY-4004 - Hydraulic

DE-4011 - Engine Oil

DE-2011- Engine Oil

Available Accessories

Lube T-Handle #0593

T-Nut Adapter #100098TN

Pressure Gauge #FG01001

Replacement O'ring #44600

Lid Cover #100099

NOTE: Viscosity, operating temperature, and generated contamination will affect sizing and flow rates of filtration equipment.

* Flow Rate Established Using SAE 30 wt Oil @ 160F
